

## Graceland University School of Nursing

### How to calculate the Prerequisite Course GPA

Fill in the course hours and grades. Add all hours and record total at the bottom of the column.

Then using the scale below, multiply the hours for the course times (x) the points for the grade.  
Example: 3 hour class with a grade of A (4 points) is equal to 12 points. If the grade would have been a B, then the value is 9 points, etc. Add the points column and enter the total at the bottom.

Course	Number of hours	Letter grade	Points
Chemistry			
*Anatomy			
*Physiology			
*Anatomy & Physiology			
*Anatomy & Physiology II			
Microbiology			
Nutrition			
Medical Terminology			
College Algebra or higher level math			
Intro to Statistics			
Intro to Psychology			
Intro to Sociology or Cultural Anthropology			
Developmental Psychology (Human Lifespan)			
Intro to Philosophy or Ethics			

Total hours \_\_\_\_\_

Total points \_\_\_\_\_

A grade= 4 points  
B grade= 3 points  
C grade=2 points  
D grade= retake course

TOTAL POINTS \_\_\_\_\_  
divided by  
TOTAL HOURS \_\_\_\_\_  
equals  
**Prerequisite GPA** \_\_\_\_\_

\*based on your college course offerings, choose Anatomy, Physiology; or A&P together; or A&P I and A&P II
